Below are some YouTube links sent to us from some of our customers. Our spoilt babies clearly have wonderful homes and we are very thankful to the people that have taken the time and effort to put these together and put them on YouTube.

If you are an owner of a Suchi Burmese and have a YouTube video please send us the link so we can share in some of the fun and games.

Owner Jodie - Anne Smith

The baby kitten (Tilly: brown tortie) in this video is one of our babies that went to her new home with Jodie in early 2010. The first video was taken within the week of the kitten arriving at its new home where a pre existing Burmese (not from us) already lived. The second video was taken around the same time.
