Due to some confusion with this tab

we have now changed the format so that all topics are in the drop down options.

Please click on the drop down topic of interest.

Under the section we cover information on our current/recent litters of kittens under the 'Kittens and Litters'
drop down option. We also show you detailed examples of
how and where our kittens are raised
. Finally we discuss open dates and times and what colour options will be available for viewing when under the '
Visiting Us'
option.
