Many people are not aware that colours can often be hard to confirm when the kittens are first born. For example Chocolate and Lilac look the same in the first few weeks and

if both colours are genetically possible it can take till the kittens are 5 or 6 weeks before anyone can be confident of what colour they are. Obviously genetic testing can give a definitive answer very quickly. For people on our waiting list that are open to ANY colour Sex Combination I can usually help very quickly. Obviously the more specific customers are the longer the wait is likely to be.

I am hoping to attend the NSW Funsraiser Show out at Riverstone next weekend and I am very much looking forward to that. I am hoping to show a lovely litter of kittens I have here at the moment and I also will be taking a couple of boys along that I have been holding on to and trying to work out which one I might run on for breeding purposes. Hopefully the judges comments at the show will bring me some answers. If anyone is interested in meeting breeders and seeing a wide range of different breeds a cat show is a great way to that. I do discourage people from purchasing a kitten directly from a cat show and believe that going to the breeders home and seeing where are how any kitten you intend to purchase is raised is important. For more Tips on purchasing a kitten please check out our: [Tips for buying a kitten](http://www.burmeseaustralia.com.au/index.php?option=com_content&view=article&id=52&Itemid=94) in the resources Menu to the Left of this page.

Well I have some hungry babies to feed so I had better run for now.

24 July 2018

I am terribly slack and I do apologise for all those that follow our not so regular updates.

We have been so busy with various elements here that I have had to let my updates take a back seat. We do have kittens here at the moment and for those people that are open to ANY colour/sex combination I am helping people very quickly. We have a bit of a mixed batch here with Reds, Browns, Brown Tortie, Cream, Blue tortie etc.

I have recently mated another queen and I am hopeful we might produce Chocolates, Blue and Lilacs from her.

I will hopefully be able to get some photos up of babies in the coming weeks so please check back soon.
